COMMUNITY DIRECTOR UPDATE

NOVEMBER 1, 2025

COMMUNITY NEWS

The Community Offices will be closed on Tuesday, November 11th, in observance of Veterans Day and will reopen at 8:00 AM, Wednesday, November 12th.

The Community Offices will be closed on Thursday, November 27th, in observance of the Thanksgiving holiday and will reopen at 8:00 AM Friday, November 28th. If you have an urgent or emergency maintenance-related issue, please call (228) 687-9969.

MAINTENANCE TIPS

Home Fires—Most home fires start in the kitchen, and Thanksgiving is the leading day for kitchen fires in the US. Nearly four times the average daily number of kitchen fires occur on this holiday.

Here are some tips to avoid cooking fires from happening in your home:

Stay in the Kitchen – Never walk away, even for a short moment, while items are cooking on the stovetop, and never leave your home while food is cooking in the oven.

Use timers – Set a timer to remind yourself that the stove or oven is on.

Limit distractions – Avoid being distracted by guests, family, or other activities when actively cooking.

In the event of a fire, remember:

For a grease fire – Slide a lid over the pan to smother flames and turn off the burner. Do not use water!

For an oven fire – Turn off the heat and keep the door closed.

Most importantly, if in doubt or the fire grows, evacuate immediately and call 911.

Holiday Decorating

Decorating the home is a long-standing tradition around the holidays, but it is important to practice good safety habits when choosing decorations. In homes with small children, it is important to avoid holiday decorations that are breakable or contain sharp edges. Keep decorations with small parts out of the reach of children and avoid trimmings that look like candy or food, as they may attract extra attention from children. For more holiday decoration safety tips, visit here. <https://www.cpsc.gov/s3fs-public/611.pdf>.

Every year, holiday lights should be tested for safety prior to use. If you choose to purchase new lights this year, look for a label indicating that the lights were independently tested for safety. Whether they are new or old, inspect each set of lights for broken or cracked sockets, frayed or bare wires, or loose connections.
