Manager's Corner

I am very pleased and honored to announce the promotion of Lead Maintenance Technician Jason Wilson to the position of Maintenance Supervisor for Keesler Family Housing.

Jason has been a vital part of the success and hard work that has been proven over the past seven years at Keesler Family Housing. Proving his capability early on Jason was promoted to lead technician and has shown the ability to train and lead a team. Jason is nothing short of an outstanding technician and has displayed that he is about team work. Jason's background in electrical and having worked at Keesler during the construction of the homes has made him a great resource. His can do and leave no team member behind attitude makes him the perfect fit for the position. We hope that this will be one of many more steps for Jason as he continues his career here with Hunt Military Communities. His hobbies include hunting, spending time with his beautiful wife, and being a new daddy to his precious baby girl!

Congratulations Jason !!!

Maintenance

Helpful Maintenance Tips to Follow:

Always turn on exhaust fans in the bathroom and kitchen before you start showering or cooking and keep the fan running for several minutes after you finish.

- Regularly run ceiling fans in your home to keep air circulating.

When showering, keep the shower curtain inside the tub or fully close the shower door.

After showering, wipe moisture off shower walls, shower doors, bathtubs and bathroom floors. Leave the bathroom door open until all moisture on the mirrors and bathroom walls have dissipated.

When using a sprinkler to water lawn, ensure the streaming is not hitting your home.

If you have concerns with your home regarding moisture related issues, please contact us. Thank you so much for choosing to live in Keesler Family Housing.
